Dear Cattlemen,

It is my pleasure to welcome you to the Kal-Kota Red Angus Complete Dispersion . The bull calves will be retained for our bull sale in February of 2019.

We started in the Red Angus breed by buying top producing foundation cows in Red Angus dispersion sales across the United States with the largest group coming from the Rogue River Ranch in Oregon. Though the purchases often made my banker very nervous, and the financial investment were sometimes large, the rewards were greater.

I started in the purebred business when I was 15 years old and watched just about every fad that came and went in the seed stock industry. We avoided fads that ultimately would cost our customers damage and decrease their bottom line.

We have moved our breeding program to a higher standard by aggressively increasing our embryo transplant program. We have done this by extending the genetics of a few superior cows that have been able to produce superior bulls and heifers.

I had the honor and privilege of judging shows from state fairs, regional shows, and national shows of several breeds from Fort Worth, and Houston Texas, Jackson, Mississippi, Denver, Colorado, Louisville, Kentucky, Kansas City, Missouri, Portland, Oregon and San Francisco, California. The great reward was meeting cattleman from the United States and around the world.

As always, we thank you for your interest and welcome any questions you may have.

Ed, Anne and Michael Kalianoff
Sincerely,

Ed, Anne & Michael Kalianoff

WCR Miss Annie XT 3283A is one of the noted donor females and cow families in the Kal-Kota. Through the quality of her progeny, this proven donor female has stood the test of time. The Annie cow family has been scattered throughout North America through the blood of several generations of excellence. This superb female sells in her prime productive years, and her daughters and family members accentuate her outstanding genetic contribution to this sale inventory.

This young daughter of Flying W Xtra 111X was a leading donor female in the Englewood program before making her way to Kal-Kota. Her embryo flush by Silveras Mission Nexus 1378 created an astounding group of females that sell as lots 2 through 6. Yet another full sister was named the Reserve Grand Champion Female at the 2018 Kentucky State Fair.

The Annie family is represented with the most influential genetics for the future. The entire Kal-Kota female line sells.

KKC JRC Annie 201C is a powerful and impressive female from the Annie cow family. She is a perfectly balance of genotype and phenotype that brings forth the best of both sire and dam in this exceptional female. The genetic merging of this pedigree has produced this outstanding individual, and she is one of the featured individuals in this historic and timely Red Angus Dispersal.

Decades of selective breeding are represented in the pedigree of this great donor female.

WPRA LEGACY A-314 sire of Lot 7

WPRA Legacy A-314 has emerged as one of the great breeding sires in the Red Angus industry. He is the son of Red Lazy MC Eye Spy 64Y, the former National Western Stock Show Grand Champion Bull. His dam is rich in performance and maternal blood from the Everelda Intense cow family.

Crump Power Kind 7111

WCR Baneberry De 3278A is a tremendous producing female from the famed Baneberry cow family that has served the breed as a spectacular genetic source of seedstock. The daughter of Red Lazy MC CC Detour 2W, through embryo transfer with Red Soo Line Baneberry 5238, has created the young donor female. The female has been a great source of seedstock that has improved and added genetic power to the Kal-Kota group of females.

This donor female has been a noted source of efficiency and maternal merit that has proven results as a donor female. The lineage that is represented here is among the most noted in the industry from both the sire and dam side of her pedigree. This female will continue to be a reliable source of seedstock for years and years to come.

KKC Ms Velvet 40X is from the initial foundation genetics that were selected to form the Kal-Kota Red Angus program. The selective breeding is made apparent in this donor female that has generated many herd bulls and breeding individuals throughout the years. The strong maternal value for this individual makes her one of the elite females that have made the Kal-Kota program so successful.

CV Prim Rose G700 was one of the early foundation females that was selected for this Red Angus breeding herd. Fertility, performance, maternal and correctness are all perfectly blended into this great individual. Generations of excellence is a part of this individuals pedigree and genetic history.

PE to A-1 Detour 7424 from 5/26/18 - 9/14/18

The strongest of maternal values are offered in this foundation female..The female is sired by one of the early herd sires utilized in the Kal-Kota breeding program. She is exceptional in her ability to produce strength and performance as evidenced by her bull calf that will sell next spring through the annual bull sale.

The never-miss ability of this female is an asset to this excellent female. She and her mates and offspring have been a vital part of the Kal-Kota breeding herd over the years.

OCC Reckoning E10 is a breeding bull sired by Red U-2 Reckoning 149A. His dam is from the Six Mile Lakoto 35W cow family that traces on back to the Stewart Lakoto 612S cow family that has been one of the most successful breeding females in the industry. The dark red bull was used on selected females in the dispersal offering. He adds muscle mass and performance to the sale inventory.
