**Be sure to attend the  
LLB Angus 33rd Annual Bull & Female Sale,  
Saturday, March 9 in Erskine Alberta.**

**SUNDAY, MARCH 10, 2019 - 2 P.M.  
At Combest Farms - Erskine, Alberta**

**FOR OUR U.S. FRIENDS...**

At the present time, the Canadian dollar is approximately 76% of the U.S. dollar. This makes for an extraordinary advantage for those paying with U.S. currency. All monies will be accepted in Canadian dollars. Current exchange rates will be announced sale day.

**EPDS...**

This year, if you follow EPDs, you are going to notice the Red Angus Bull's numbers seem "Off". They are. The Canadian Angus Association has implemented a program called "Angus One." These new numbers are now being calculated with the American Angus Association. This means the American Black Angus cattle and Canadian Angus cattle, both red and black, now make up these new numbers. Below is a paragraph from the Canadian Angus Association regarding the changes for Red Angus breeders: "Canadian Red Angus members will notice this change to their cattle EPDs. These new EPDS are not comparable to previous EPDs. Please don't think of it as your EPDs changing. This is a completely new set of numbers, now directly comparable and on the same base as EPDs for Black Angus animals (both in Canada and the U.S.). This change will take time to adjust to in that your acceptable ranges for EPDs for your program and your environment will need to be reassessed." EPDs are current as of 2/5/2019.

**DELIVERY...**

Buyers who take bulls home sale day will receive a \$100 discount. Bulls will be delivered free within 250 miles. Bulls delivered more than 250 miles will be at cost. Bulls may be kept at Combest or Lindon free of charge until May 1. After May 1, a \$3 per day charge will be incurred and buyers must pick up bulls.

**FERTILITY GUARANTEE...**

All bulls will be semen tested with results and current scrotal measurements posted. Sale weights will also be posted. All 2-year-old bulls are virgin bulls. Bulls are not guaranteed to produce freezable semen.

**INSURANCE...**

All bulls staying at either farm must be insured by the buyer. An insurance agent will be on hand sale day.

**FEED RATION...**

The yearling bulls have been hand fed twice daily with Bullseye 14% Bull Developer Complete Pellet, plus free choice hay and mineral. Two-year-old bulls went on grass June 1, 2018 and came back October 1, 2018 and started Bullseye 14% Bull Developer Complete Pellet, plus free choice hay.

**ANNOUNCEMENTS...**

Any changes from information of any kind in this catalog will be announced from the auction block and such announcements shall take precedence over printed material.

**TERMS...**

Terms of sale are cash unless satisfactory credit arrangements have been established. All settlements are to be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the sale premises.

**HANDLING RISKS...**

Each animal will be at Purchaser's risk as soon as sold, but loading assistance will be provided after settlement has been made. Each animal will be fed, watered and cared for at Purchaser's risk for a reasonable time to allow for removal to Purchaser's farm.

**RIGHTS AND OBLIGATIONS...**

In the event of default in any part of the Terms and Conditions covering this sale by either the Buyer, or the Seller, it shall be the responsibility of the Buyer or the Seller, to instigate any action necessary to bring about a fair settlement of any claims arising from this sale and to be responsible for any and all cost involved therein. The sale manager assumes no responsibility, legal or otherwise, for the failure of either Seller or Buyer to fulfill his obligation. All persons who attend this sale do so at their own risk. Neither the owners, the sale manager nor any other persons connected with the sale, assumes any liability, legal or otherwise.

# ANGUS BULL SALE *First Edition*

Dear Cattlemen,

We welcome you to our first Red Angus Bull Sale on the farm at Erskine, Alberta. For many years, we have depended on private treaty sales to market our bulls, but as our numbers have increased, we have chosen to sell them at auction. Although relatively new in the Red Angus seedstock industry, Combest Farms has been breeding purebred cattle for decades. We are pleased with our Red Angus herd, and are confident the set of bulls we have for this sale will be met with approval by purebred Red Angus and commercial producers alike.

The yearling and 2-year-old bulls have all been born and raised on the farm. They have been managed under realistic conditions, and the performance is exceptional on the entire group.

We've done our best to select herd sires and females for the herd to produce cattle that will work well in many different conditions. Above all else, the cattle will grow well, and replacement females from the bulls should milk exceptionally well. We stand behind them 100%.

We invite you to be with us for the sale and anytime prior to the sale to have a look.

We are pleased to be joined by the Penosky and Sharp families of Lindon Angus Farm in adding their good Angus bulls to the sale offering.

Thank you for your interest and let us know how we can assist you.

Sincerely,

Lynn and Tyra Combest

**Combest**  
*Red Angus*

LYNN COMBEST

Box 127, Erskine, Alberta T0C 1G0  
(403) 742-5211 - (403) 740-7621 cell

Greetings,

It is our pleasure to present our 2019 bull offering. We feel our bulls are consistent in type and there is really something for everyone in our offering. We have been raising Black Angus cattle for four generations and we stand behind the cow families and herd bulls that have worked for us for generations. Hard culling with a focus on good feet, good udders, calving-ease, performance and disposition have resulted in our cow herd today. Our bulls are raised to have longevity and be productive for the commercial and purebred cattleman.

We sincerely thank those who have supported our program to this point and our future supporters. Please feel free to contact any of us or the sales staff to assist you with your bull selection. We invite you to view the bulls at Lacombe, Alberta, anytime and to the sale March 10 at Combest Red Angus in Erskine, Alberta.

Sincerely,

Lindon Angus Farm

## SALE MANAGEMENT:

### SEEDSTOCK CONSULTANTS SPECIALIZED SALES

612 W. Franklin St., Ste. 12A, Richmond, VA 23220  
Keith Kisse | Cell: 817/821-6263  
Ph: 804/353-2220 | Fax: 804/353-2221  
kkseedstock@comcast.net | www.kkseedstock.com

## BIDDING...

Each animal for sale will be sold to the highest bidder. Each bid shall constitute an offer to purchase, and the final bid shall constitute a binding contract between the Buyer and Seller. The auctioneer will settle any disputes as to bids and his decision in such matters shall be final. Bids by phone, mail or wire will be accepted and handled confidentially by sale management.

## REGISTRATION CERTIFICATES...

A certificate of registry will be furnished for each animal at no cost to the Buyer within forty-five (45) days after settlement of animals purchased.

## DIRECTIONS TO COMBEST FARMS

From Erskine: 2.5 miles west on Hwy. 12, then 0.5 mile south.

From Junction of Hwy. #11 and #12: go 2.5 miles east on Hwy. 12, then 0.5 mile south.

COMBEST RED ANGUS

# ANGUS BULL SALE

Red Combest Juggernaut 803F and his twin brother 804 are from the most prominent genetic lines in the industry. This sale features some of the first breeding-age progeny by Red Combest Juggernaut, our herd sire that we own with Ter-Ron Farms and Leonard Tufty. Although deceased, his limited progeny are available through this sale offering.

His dam, Red Ter-Ron Heather 173Y, is a valuable and consistent producing female. She has become a noted source of powerful genetics in the industry, and the daughter of Red U-2 Big League is a relentless producer of multi trait acceptance.

Packed with meat and muscle, these two twin full brothers cataloged at the beginning of the sale offering are herd sires of excellent quality and performance. Red Ter-Ron Heather 173Y is one of first Red Angus cows that helped establish the Combest herd. Predictable genetics are represented within the genetic profile of this yearling bull.

The conformation and pedigree of these first two cataloged bulls are exquisite. Generations of excellence can be traced throughout the lineage. Herd sires of the highest caliber are made available here.

Red Combest Domino 815F is from a dam that is a member of the Heather cow family. This family of females are among the earliest members of the Combest breeding herd. The sire, Red Ter-Ron Domino 51D, is among the sale offering. This yearling bull is a complete and total package of balanced trait selection.

# First Edition ANGUS BULL SALE

This Red Ter-Ron Domino 51D son is backed with an outstanding dam and maternal cow family. Several generations of females that are all related to the first original female have produced remarkably consistent progeny. This is a high-performing Red Angus bull with a highly valued display of ancestors.

The Red Combest Alysa 201Z influence is well noted in the Combest breeding herd. This family lineage will be a major part of the progress in the herd for years to come.

% Rank	67	13	21	44	20	66	12

Red Combest Juggernaut 821F is a nicely patterned and efficiently designed bull who is from a unique and explosive genetic combination and was a twin. He is one of the top sons of Red Combest Juggernaut 1613D, genetically derived from an embryo mating with Red Rainbow Larkaba 29X. She, in turn, is one of the most accomplished Red Angus females in North America and one of the lead donors in the Rainbow Red Angus breeding program.

# ANGUS BULL SALE *First Edition*

Red Combest Juggernaut 823F is the full brother to 821F. Both full sibs have become some of the most nicely designed bulls in the offering. Furthermore, the performance arithmetic is impressive at every measure for both of the brothers. The genetic combination can be found nowhere else, and these two brothers offer new and progressive genetics to North America.

His sire, Red Combest Juggernaut 1613, has made a remarkable impact upon the Combest breeding herd.

His limited semen will continue to be used through AI and embryo transplant. This son is one of the earliest to sell

Red Combest Domino 824F is from a proven maternal pedigree that is well-documented. Red LLB Lucy 716Z is having a stellar career in the Combest lineup of breeding females. A maternal sister to the bull that sells as this lot is the \$20,000 bred heifer that sold through the Combest Dispersal to J6 Farms. Some of the best cow families in North America are represented in the pedigree of this breeding bull.

Red Combest Lucy 401B • Maternal sister

COMBEST RED ANGUS

# ANGUS BULL SALE

Red Combest Domino 829F is the son of Red Ter-Ron Domino 51D and Red Blair's Yankee 158B. The yearling bull has a great look, and his potential as a breeding bull looks bright. All through the line, every box is checked for his ability to serve as a herd sire. This bull is a descendent of one of the most noted cow families in the industry. His dam is a favorite cow among many visitors.

Red Silveiras Mission Nexus • Sire

Red Combest Nexus 833F is an impressive breeding bull, and he represents the most popular lines in the industry. Both sire and dam are among the stand out individuals in the Red Angus breed. Red Silveiras Mission Nexus has become one of the most popular breeding bulls ever utilized in the Red Angus breed. His progeny excel in every aspect of the industry, and his influence is gaining momentum and appreciation each day.

Red MTC Alayna 6047 is a unique breeding female, and she was bred in the Mitch and Jody Campbell program before she became a part of the breeding program at Combest Farms. The balance and scope of the genetic profile from this female makes her son a worthy herd sire individual for breeder herds throughout North America.

Red MTC Alayna 6047 • Dam
